**BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT**

75 Clarendon is a high rise condominium project in Boston, MA and contains 45 units on 7 floors. The site of the building was in an area of town called the South End, which was seeing a rebirth of development. The context consisted of a variety of 2 and 3-story walk-up brownstones. The design was done in a manner that was sensitive to the context incorporated design elements from adjacent buildings, yet contained modern amenities and on-site underground parking located just below the building. The building was clad in cast stone panels, brick veneer and painted metal panels.

New Construction: 60,000 Sq. Ft. Cost Unavailable,

Role: Architectural, Interiors, Structural and MEP.

Work completed while employed by Notter, Finegold & Alexander, now Finegold & Alexander.
