BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The Design / Build project included the design of a new three tenant retail center near the intersection of 96th Street North and Garnett Road in Owasso, Oklahoma. The owner of the retail center and Liquids Liquor Store occupies the larger tenant space which contains 8,522 sf while the remaining two tenant spaces contain 1,450 sf each. The design was based on the owner's preference to be unique from adjacent retail, but one that had to stay within their tight budget. In order to achieve both, our team utilized utility type materials in a configuration that created a high level of aesthetic and quality without compromising the budget.

11,422 Sq. Ft. Cost: \$1,200,000

Role: Architectural, Interiors, Civil, Structural, MEP & Landscaping
