BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

We were contacted by Wayne Barker, a civil engineer in Durant, OK, to design a new office building to house their operations. The project includes the construction of a single-story conventional wood framed building with approximately 3,000 SF and clad in a combination of stone, brick and stucco representing an Old World or Country French aesthetic. The floor plan includes 6 offices, kitchen, restroom and conference room.

3,000 Sq. Ft. Cost: Unknown
