BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

Project included an addition to the existing clinical building. The addition houses an expanded pharmacy with a separate public entrance and drive-up window. The addition also contains new patient exam rooms. The renovated area was limited and reconfigured to accommodate the new addition relative to control and patient and staff flow. The addition extended into the existing parking so the parking lot was also expanded to capture the lost parking and provide additional parking.

1,745 Sq. Ft. of new construction and 2,560 Sq. Ft. of renovated space, * \$980,000 *

Role: Architectural, Interiors, Structural, Civil & MEP
