BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

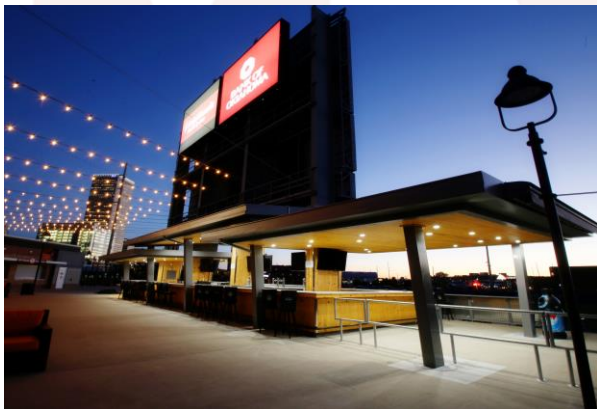

Reported to be the largest outdoor bar in Oklahoma with 2,000 sf under roof, the new ONEOK Stadium facility has been a big hit for the ballpark staff and fans. The bar is located directly under the large scoreboard in center field and is designed to serve the public and private parties simultaneously. The bar features over 120 linear ft of bar stool seating and a designated serving area for private party dining events. The angled roof canopies are designed to enhance the view of the park and the Tulsa skyline, but more importantly to maximize visibility of the action on the field.

Cost: \$425,000

Role: Architectural, Interiors and MEP.

Winner of the Associated Builders and Contractors of Oklahoma Excellence in Construction Award
