BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

Our client tasked us with creating an abstract baldachin for their existing sanctuary as a part of a renovation project. The clusters of hanging brass rods create an airy cloud above the altar which cast cruciform shadows on the new marble floor and steps below. Additionally, the project included a new ambo, tabernacle, and statuary niches as well as new linear light fixtures to provide a more even lighting pattern at the pews.

Sq. Ft.: 5,700 Cost: \$345,000.

Role: Architecture, Interiors, and Electrical.
