BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The Choctaw Nation engaged Minko Design to design an addition to the existing Print Services building in Durant, OK. The new building provided an additional 14,250 sq ft of space needed to expand the production capabilities of the existing facility. The addition included spaces for restrooms, a breakroom, storage, as well as designated areas for screen printing, embroidery, print mailing, and other similar activities. The new facility closely matched the exterior of the existing building, with additional parking and two loading/unloading zones dedicated to larger trucks.

14,250 Sq. Ft. Addition Cost: \$2,827,400.00

Role: Architectural, Structural & MEP
